

July 13, 2009

Dear Superintendent,

True Concept Solutions cordially invites you to an ARRA Information Luncheon that will change the way you manage your school forever.

Do you wish that you could spend less time keeping track of paperwork and preparing for your next compliance audit? Are you wondering how you can effectively invest your grants (ARRA, SFSF, Title I, Title II, Title V-D, IDEA-B and other funds) into technological infrastructure and quality educational enrichment? Imagine if you could attract more students, quality teachers and generous donors. True Concept Solutions will discuss all these topics and more at our ARRA Information Luncheon.

At this luncheon you will:

- Learn about programs that will allow you to invest your Title and ARRA funds wisely in long-lasting technological infrastructure
- Find out about systems that will make managing your school easier and enhance the learning experience of your students
- Hear about techniques that can increase your marketability and recruitment
- Tour a working computer lab

The doors will open at 10:30 a.m. Thursday, July 30, 2009 at our flagship school:

King Academy Community School
933 Bank Street
Cincinnati, OH 45214

Reserve your seat by using the enclosed response form or by visiting www.TrueConceptSolutions.com/RSVP no later than July 24th. Parking is available on the school premises. We look forward to learning more about your school and discovering ways that we can help meet your needs.

Sincerely,

Steven Iyoha
Business Development Manager
